The information desk staff and the educators are trained to welcome visitors with disabilities.

Easy
Read

Cité des Télécoms overview

There are 2 buildings at the Cité des Télécoms.

- A two-storey exhibition centre.
- It is dedicated to the history and evolution of telecommunications and digital technology.
- The Radôme is a large white dome.
- It houses a telecommunication antenna.

This antenna received the first live television broadcast from the United States via satellite.

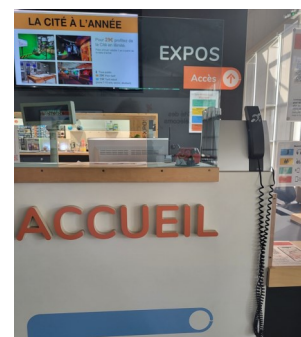

Getting information

- The information desk is accessible to a person in a wheelchair.

- The information desk has a hearing loop installed.
A hearing loop is an assistive listening device for people with hearing aids.

Visiting the Cité des télécoms

For individual visitors

- The exhibition is accessible without a guided tour.
- You go to the Radôme during an immersive tour.

During the immersive tour, you travel back in time thanks to the setting and devices.

- Visitors can enjoy activities and exhibition tours led by an educator.
- An educator is a tour-guide.
- Information about the schedule of these activities can be found at the information desk.

For groups

- Tours are adjusted to meet the needs of various groups.
Pre-visit preparation is available with the person in charge of the group.
- Groups are received upon arrival and accompanied by one or more educators during the entire visit.

Using tools of visit —Upon request at the information desk

If you have visual impairments (e.g., blindness), ask the staff at the information desk for the lending of

- An audioguide.
- A booklet in large-print about the Radôme.
- A magnifying glass and lighted magnifying light.

If you have hearing impairments (e.g. deafness), ask the staff at the information desk for the lending of

- An audioguide including subtitled contents with an induction neck loop or headphone.
- A booklet about the Radôme.

If you have neurodivergent conditions, ask the staff at the information desk for the lending of

- The easy-read welcome booklet and about the Radôme.
- A noise-cancelling headphone.

If you are a person with a reduced mobility, ask the staff at the information desk for the lending of

- A wheelchair

Finding your way

- The site map is available for download on our web site <https://www.cite-telecoms.com/en/parc-du-radome-2/>

You can download the site map at the information desk by scanning a QR code with your smartphone.

- Each exhibition room has a number and a name.
- A tactile replica is located on the ground floor of the exhibition centre.

Getting around

- Service dogs, including guide dogs, are welcome.
- Cane chairs are available at the entrance of the first exhibition room.
- Wheelchairs are available upon request at the information desk, based on availability.
- The lift is located after the second exhibition room. The lift takes you upstairs. To go to the Radôme, you must go upstairs and exit the exhibition centre.
- The Radôme is accessible to a person in a wheelchair using a specific entrance.
- Most exhibition rooms are accessible to a person in a wheelchair.

The exhibition room 5 is not accessible to a person in a wheelchair.

Sitting down and relaxing

- There is a relaxing area upstairs.
Chairs and tables are available next to the vending machines.
There is vending machine for drinks, sweets and snacks.
- There are benches in different rooms of the exhibition centre.
- There are several picnic areas in the park.
- Accessible toilets are located on the ground floor.
- A changing table is upstairs, next to the toilets and the vending machines.

Buying souvenirs

Postcards, books, games, labeled products are on sale with free access.
